

Dandelin's ice cream from the freezer bag

Do you love ice cream just like Dandelin? Then try this recipe – it's not just easy, it's also lots of fun!

You need

- a big freezer bag (use two to be safe)
- 50g salt
- ice cubes (crush them if possible)
- gloves

Ingredients

- eine Tasse Milch (= one cup of milk)
- eine Tasse Sahne/Schlagobers (= one cup of cream)
- zwei Löffel Zucker (= two spoons of sugar)
- Vanilleextrakt (= vanilla extract)
- Schokostreusel (= chocolate sprinkles)

Add all of the ingredients for the ice cream to a bowl. Pour the liquid into the small freezer bag and close it tight. (Use a second freezer bag to be safe when shaking). Then, put the small freezer bag in the large freezer bag. Add ice cubes and salt to the large freezer bag and close it tight.

Now comes the fun part: Shake, beat and throw the bag! It's going to get very cold so it's best to put some gloves on. Keep on going until the milk and cream turns into ice cream. Don't forget to watch how the liquid turns into ice
